Digital Workshop - April - May 2017
What Questions Did We Ask?
Phase 3 engagement activities were designed to gather input about strategies to achieve the Minneapolis 2040 Goals using historical context of past planning decisions and their negative effects on communities. Engagement questions were centered on equity, access, and housing policies and their impacts on equity and growth in Minneapolis.

Housing
How can the comprehensive plan increase access and opportunities for housing?

Imagining Equity
The year is 2040. Minneapolis has eliminated race-based disparities. What is it like in 2040?

Draw Minneapolis in 2040, a city that is healing and reconciling forward. What does it look like? How do we get there?

What Did We Hear?

Gentrification and displacement of existing residents is a growing concern among the community. New development occurs existing residents cannot afford to live in the neighborhood.

We need to encourage safe and sustainable modes of transportation in order to protect pedestrians and bikers, and the environment.

Families needs healthy homes that are accessible to jobs and grocery stores.

The City should work to empower small businesses to thrive in the City.

The City needs to invest resources into programs that are equitable in supporting people of color and indigenous communities in achieve housing and job objectives.

What is Next?

• Phase 3 engagement feedback is being used to develop policy statements in order to help achieve adopted comprehensive plan goals.
• The next big opportunity to engage will be in late 2017.

All feedback is available at minneapolis2040.com
