

MEMORANDUM

To: Mike Larson, Metropolitan Council
Prepared By: Joe Bernard, CPED Long Range Planning
Date: June 18, 2019
Subject: Minneapolis 2040 Resubmittal

CHANGES TO MINNEAPOLIS 2040

The contents of this memo outline the changes made to Minneapolis 2040 in response to Metropolitan Council comments sent to the City of Minneapolis dated June 12, 2019. Changes made are identified by page number in the table below and can be found in the PDF file uploaded to the Met Council's website on June 18, 2019.

If you have any questions, please contact me at your convenience.

Topic	Location	Change Made
Organization Change / Reference	Appendix H, cover page	<u>This appendix provides supporting content for regional parks and trails related policies and satisfies the Metropolitan Council requirements related to regional parks and trails.</u>
Organization Change / Reference	Page 100	<u>Additional supporting materials for Parks and Open Space content can be found in Appendix H, Regional Parks and Trails.</u>
Organization Change / Reference	Page 58	<u>Additional supporting materials for Land Use and Built Form content can be found in Appendix B, Land Use.</u>
Organization Change / Reference	Page 81	<u>Additional supporting materials for Transportation content can be found in Appendix D, Transportation.</u>
Organization Change / Reference	Page 92	<u>Additional supporting materials for Environmental Systems content can be found in Appendix F, Wastewater.</u>
Forecasts	Appendix F, page H-3	Column for 'Households (2020)' updated to reflect consistent forecast number of 190,700
Forecasts	Appendix D, page D-1 to D-7	Column for 'Households (2020)' updated to reflect consistent forecast number of 190,700
Forecasts	Page 49	The Metropolitan Council Minnesota Department of Employment and Economic Development estimates that Minneapolis was home to 315,300 318,500 jobs in 2015, and <u>the Metropolitan Council</u> projects that the city will add 33,054 41,500 jobs by 2040.

Forecasts	Page 109	The Metropolitan Council Minnesota Department of Employment and Economic Development estimates that Minneapolis had 315,300 318,500 jobs in 2015, and the Metropolitan Council projects that the City's employment will grow by 33,054 41,500 by 2040.
Parks	Appendix H, H-1	<p>...of different amenities and activities, including swimming, boating, concessions, programmed performances, and more. <u>Connected to the Chain of Lakes by the Grand Rounds Scenic Byway, Nokomis-Hiawatha Regional Park provides further variety in this vein, offering opportunities to swim, ski, play ball, picnic, and more.</u> Theodore Wirth Regional Park similarly acts as a regional destination for a great deal of outdoor activities, with a particular bent towards outdoor sports such as hiking, mountain biking, and skiing.</p> <p>Several regional parks span the length of the Mississippi River in Minneapolis: <u>Minnehaha, Mississippi Gorge, Central Mississippi Riverfront, Above the Falls, and North Mississippi regional parks.</u> As with the Chain of Lakes, public access to the river has been preserved along much of its length as a result of prudent planning. <u>Minnehaha Regional Park provides a strong draw for visitors through many different amenities including Minnehaha Falls, a full service restaurant, several historical sites, and an expansive off-leash dog park.</u> The Mississippi Gorge provides a scenic experience where visitors can experience the river from the parkways or hike down to the shore. The Central Mississippi Riverfront allows visitors easier access to the water via trails, landscaped parks, and other improvements. In the Above the Falls area, agencies are cooperating to restore public access to the river where it has been lost in order to create a more cohesive park experience in this portion of the city. North Minneapolis Mississippi Regional Park provides a mix of improved and natural areas falling somewhere between that of the Central Riverfront and the Gorge.</p>
Wastewater	GIS file request	Minneapolis Public Works staff is working directly with Steve Hack to supply the requested file for local sanitary lines.
Wastewater	Appendix F, Pages 4-7 and 1-10	Resolved inconsistencies in the reporting of the number of individual SSTS in operation in the City.
MRCCA	DNR review	Dan Petrik with MnDNR has indicated that his review of the supplemental version of the critical area plan is complete as of June 13, 2019.
Housing	Page 16	"Overall, 49 37 percent of all households in Minneapolis are cost-burdened"
Housing	Page 85	" 37 Thirty-seven percent of all households in Minneapolis are cost-burdened"
